SUBJECT INDEX

environmental effects
  general 257–270
electric power
  transmission and distribution 271–277
energy policy and planning 19–36, 229–239, 319–326, 327–335, 379–383
energy sources
  coal 71–77
  geothermal 5–18
  natural gas 394–399
  petroleum 229-239, 241-255, 319–326, 327–335
  reserves and resources 337–348
  supply, demand and economics 19–36, 327–335
  general 78–80, 241–255, 301–306, 337–348
energy utilization
  agricultural 271–277
  general 327–335

international co-operation
  energy 63–70
  minerals 63–70, 215–227, 291–299
  water 63–70

mineral economics
  finance 215–227, 291–299
  general 373–378
mineral policy and planning
  215–227, 257–270, 373–378

ocean resources
  economics 385–389
  general 337–348, 385–389

projections
  energy 19–36

water resources demand, use and efficiency
  desalination 399–404
water resources planning, development and management
  development 391–394
  law and legislation 279–290, 359–371
  management 37–52, 349–357
  policy and planning 53–62, 349–357
  general 391–394
